

## Universal after care GEL + MASK for in-clinic & home care

EP + After care booster Gel & Mask are post-procedure products supplying an essential nutrient therapy that enhances skin relief, rejuvenation & revitalization processes following various aesthetic treatments. Even greater and quicker effects can be achieved when using together.

### KEY INGREDIENT

#### | EGF

Accelerates the growth of epithelial cells. EGF does so by transmitting a signal through EGF receptor on the cell membrane which then induces a split of cells.

#### | Snail secretion filtrate

Snail secretion filtrate functions as a powerful natural antioxidant and minimizes scars from dermatological procedures.

[J.L. Alonso-Lebrero et al. Poster # 0253 Miami 2002]

#### | Centella asiatica extract

Centella asiatica prevents bacterial activity and helps collagen synthesis which plays a significant role in skin regeneration.

#### | Allantoin

Allantoin has an instant soothing effect for red spots after laser treatment

### APPLY AFTER

Laser

Acne extraction

Peeling

CO2 Carboxy Therapy

Mesotherapy (MTS)

Other aesthetic programs
